9. Non-Conforming Proposals

Non-conforming proposals will not be considered. Non-conforming proposals are defined as those that do not meet the requirements of this RFP. The determination of whether an RFP requirement is substantive or a mere formality shall reside solely within the State of Delaware.

10. Concise Proposals

The State of Delaware discourages overly lengthy and costly proposals. It is the desire that proposals be prepared in a straightforward and concise manner. Unnecessarily elaborate brochures or other promotional materials beyond those sufficient to present a complete and effective proposal are not desired. The State of Delaware's interest is in the quality and responsiveness of the proposal.

11. Realistic Proposals

It is the expectation of the State of Delaware that vendors can fully satisfy the obligations of the proposal in the manner and timeframe defined within the proposal. Proposals must be realistic and must represent the best estimate of time, materials and other costs including the impact of inflation and any economic or other factors that are reasonably predictable.

The State of Delaware shall bear no responsibility or increase obligation for a vendor's failure to accurately estimate the costs or resources required to meet the obligations defined in the proposal.

12. Confidentiality of Documents

The State of Delaware and its constituent agencies are required to comply with the State of Delaware Freedom of Information Act, [29 Del. C. § 10001, et seq. \("FOIA"\)](#). FOIA requires that the State of Delaware's records are public records (unless otherwise declared by FOIA or other law to be exempt from disclosure) and are subject

STATE OF DELAWARE
Division of Developmental Disabilities Services

to inspection and copying by any person upon a written request. All proposals are subject to FOIA's public disclosure obligations.

The State of Delaware wishes to create a business-friendly environment and procurement process. As such, the State respects the vendor community's desire to protect its intellectual property, trade secrets, and confidential business information (collectively referred to herein as "confidential business information"). Proposals must contain sufficient information to be evaluated. If a vendor feels that they cannot submit their proposal without including confidential business information, they must adhere to the following procedure or their proposal may be deemed unresponsive, may not be recommended for selection, and any applicable protection for the vendor's confidential business information may be lost.

In order to allow the State to assess its ability to protect a vendor's confidential business information, vendors will be permitted to designate appropriate portions of their proposal as confidential business information.

Vendor(s) may submit portions of a proposal considered to be confidential business information in a separate file labeled "Confidential Business Information" and include the specific RFP number. The file must contain a letter from the Vendor's legal counsel describing the documents in the envelope, representing in good faith that the information in each document is not "public record" as defined by 29 Del. C. § 10002, and briefly stating the reasons that each document meets the said definitions.

Upon receipt of a proposal accompanied by such a separate, sealed envelope, the State of Delaware will open the file to determine whether the procedure described above has been followed. A vendor's allegation as to its confidential business information shall not be binding on the State. The State shall independently determine the validity of any vendor designation as set forth in this section. Any vendor submitting a proposal or using the procedures discussed herein expressly accepts the State's absolute right and duty to independently assess the legal and factual validity of any information designated as confidential business information. Accordingly, Vendor(s) assume the risk that confidential business information included within a proposal may enter the public domain.

13. Multi-Vendor Solutions (Joint Ventures)

Multi-vendor solutions (joint ventures) will be allowed only if one of the venture partners is designated as the "**prime contractor**". The "**prime contractor**" must be the joint venture's contact point for the State of Delaware and be responsible for the joint venture's performance under the contract, including all project management, legal and financial responsibility for the implementation of all vendor systems. If a joint venture is proposed, a copy of the joint venture agreement clearly describing the responsibilities of the partners must be submitted with the proposal. Services specified in the proposal shall not be subcontracted without prior written approval by the State of Delaware, and approval of a request to subcontract shall not in any way relieve Vendor of responsibility for the professional and technical accuracy and adequacy of the work. Further, vendor shall be and remain liable for all damages to the State of Delaware caused by negligent performance or non-performance of work by its subcontractor or its sub-subcontractor.

STATE OF DELAWARE
Division of Developmental Disabilities Services

Multi-vendor proposals must be a consolidated response with all cost included in the cost summary. Where necessary, RFP response pages are to be duplicated for each vendor.

a. Primary Vendor

The State of Delaware expects to negotiate and contract with only one “prime vendor”. The State of Delaware will not accept any proposals that reflect an equal teaming arrangement or from vendors who are co-bidding on this RFP. The prime vendor will be responsible for the management of all subcontractors.

Any contract that may result from this RFP shall specify that the prime vendor is solely responsible for fulfillment of any contract with the State as a result of this procurement. The State will make contract payments only to the awarded vendor. Payments to any-subcontractors are the sole responsibility of the prime vendor (awarded vendor).

Nothing in this section shall prohibit the State of Delaware from the full exercise of its options under Section IV.B.18 regarding multiple source contracting.

b. Sub-contracting

The vendor selected shall be solely responsible for contractual performance and management of all subcontract relationships. This contract allows subcontracting assignments; however, vendors assume all responsibility for work quality, delivery, installation, maintenance, and any supporting services required by a subcontractor.

Use of subcontractors must be clearly explained in the proposal, and major subcontractors must be identified by name. **The prime vendor shall be wholly responsible for the entire contract performance whether or not subcontractors are used.** Any sub-contractors must be approved by State of Delaware.

c. Multiple Proposals

A primary vendor may not participate in more than one proposal in any form. Sub-contracting vendors may participate in multiple joint venture proposals.

14. Sub-Contracting

The vendor selected shall be solely responsible for contractual performance and management of all subcontract relationships. This contract allows subcontracting assignments; however, vendors assume all responsibility for work quality, delivery, installation, maintenance, and any supporting services required by a subcontractor.

Use of subcontractors must be clearly explained in the proposal, and subcontractors must be identified by name. Any sub-contractors must be approved by State of Delaware.

15. Discrepancies and Omissions

Vendor is fully responsible for the completeness and accuracy of their proposal, and for examining this RFP and all addenda. Failure to do so will be at the sole risk of vendor. Should vendor find discrepancies, omissions, unclear or ambiguous intent or

STATE OF DELAWARE
Division of Developmental Disabilities Services

meaning, or should any questions arise concerning this RFP, vendor shall notify the State of Delaware's Designated Contact, in writing, of such findings at least ten (10) days before the proposal opening. This will allow issuance of any necessary addenda. It will also help prevent the opening of a defective proposal and exposure of vendor's proposal upon which award could not be made. All unresolved issues should be addressed in the proposal.

Protests based on any omission or error, or on the content of the solicitation, will be disallowed if these faults have not been brought to the attention of the Designated Contact, in writing, at least ten (10) calendar days prior to the time set for opening of the proposals.

16. RFP Question and Answer Process

Questions must be submitted before the due date identified in the Procurement Schedule for this RFP. All inquiries must be submitted in the Q/A section of the project listing in the [Bonfire Procurement Portal \(https://dhss.bonfirehub.com\)](https://dhss.bonfirehub.com). The Department's response to questions will be posted, according to the procurement schedule, under the project listing in Bonfire and to the State of Delaware Bid Solicitation Directory Website: <http://www.bids.delaware.gov/>.

17. To contact Delaware Health and Social Services or ask questions in relation to this RFP, respondents must register with the Organization's public purchasing portal at <https://dhss.bonfirehub.com> (the "Portal") and initiate the communication electronically through the Opportunity Q&A. Delaware Health and Social Services will not accept any respondent's communications by any other means, except as specifically stated in this RFP.

18. State's Right to Reject Proposals

The State of Delaware reserves the right to accept or reject any or all proposals or any part of any proposal, to waive defects, technicalities or any specifications (whether they be in the State of Delaware's specifications or vendor's response), to sit and act as sole judge of the merit and qualifications of each product offered, or to solicit new proposals on the same project or on a modified project which may include portions of the originally proposed project as the State of Delaware may deem necessary in the best interest of the State of Delaware.

19. State's Right to Cancel Solicitation

The State of Delaware reserves the right to cancel this solicitation at any time during the procurement process, for any reason or for no reason. The State of Delaware makes no commitments expressed or implied, that this process will result in a business transaction with any vendor.

This RFP does not constitute an offer by the State of Delaware. Vendor's participation in this process may result in the State of Delaware selecting your organization to engage in further discussions and negotiations toward execution of a contract. The commencement of such negotiations does not, however, signify a commitment by the State of Delaware to execute a contract nor to continue negotiations. The State of Delaware may terminate negotiations at any time and for any reason, or for no reason.

20. State's Right to Award Multiple Source Contracting

STATE OF DELAWARE
Division of Developmental Disabilities Services

Pursuant to 29 *Del. C.* [§ 6986](#), the State of Delaware may award a contract for a particular professional service to two or more vendors if the agency head makes a determination that such an award is in the best interest of the State of Delaware.

21. Potential Contract Overlap

Vendors shall be advised that the State, at its sole discretion, shall retain the right to solicit for goods and/or services as required by its agencies and as it serves the best interest of the State. As needs are identified, there may exist instances where contract deliverables, and/or goods or services to be solicited and subsequently awarded, overlap previous awards. The State reserves the right to reject any or all bids in whole or in part, to make partial awards, to award to multiple vendors during the same period, to award by types, on a zone-by-zone basis or on an item-by-item or lump sum basis item by item, or lump sum total, whichever may be most advantageous to the State of Delaware.

22. Supplemental Solicitation

The State reserves the right to advertise a supplemental solicitation during the term of the Agreement if deemed in the best interest of the State.

23. Notification of Withdrawal of Proposal

Vendor may modify or withdraw its proposal by written request, provided that both proposal and request is received by the State of Delaware prior to the proposal due date. Proposals may be re-submitted in accordance with the proposal due date in order to be considered further.

Proposals become the property of the State of Delaware at the proposal submission deadline. All proposals received are considered firm offers at that time.

24. Revisions to the RFP

If it becomes necessary to revise any part of the RFP, an addendum will be posted on the State of Delaware's website at www.bids.delaware.gov and dhss.bonfirehub.com. The State of Delaware is not bound by any statement related to this RFP made by any State of Delaware employee, contractor or its agents.

25. Exceptions to the RFP

Any exceptions to the RFP, or the State of Delaware's terms and conditions, must be recorded on Attachment 3. Acceptance of exceptions is within the sole discretion of the evaluation committee.

26. Business References

Provide at least three (3) business references consisting of current or previous customers of similar scope and value using Attachment 5. Include business name, mailing address, contact name and phone number, number of years doing business with, and type of work performed. Personal references cannot be considered.

27. Award of Contract

The final award of a contract is subject to approval by the State of Delaware. The State of Delaware has the sole right to select the successful vendor(s) for award, to reject any proposal as unsatisfactory or non-responsive, to award a contract to other

STATE OF DELAWARE
Division of Developmental Disabilities Services

than the lowest priced proposal, to award multiple contracts, or not to award a contract, as a result of this RFP.

Notice in writing to a vendor of the acceptance of its proposal by the State of Delaware and the subsequent full execution of a written contract will constitute a contract, and no vendor will acquire any legal or equitable rights or privileges until the occurrence of both such events.

a. RFP Award Notifications

After reviews of the evaluation committee report and its recommendation, and once the contract terms and conditions have been finalized, the State of Delaware will award the contract.

The contract shall be awarded to the vendor whose proposal is most advantageous, taking into consideration the evaluation factors set forth in the RFP.

It should be explicitly noted that the State of Delaware is not obligated to award the contract to the vendor who submits the lowest bid or the vendor who receives the highest total point score, rather the contract will be awarded to the vendor whose proposal is the most advantageous to the State of Delaware. The award is subject to the appropriate State of Delaware approvals.

After a final selection is made, the winning vendor will be invited to negotiate a contract with the State of Delaware; remaining vendors will be notified in writing of their selection status.

28. Cooperatives

Vendors, who have been awarded similar contracts through a competitive bidding process with a cooperative, are welcome to submit the cooperative pricing for this solicitation. **State of Delaware terms will take precedence.**

C. RFP Evaluation Process

An evaluation team composed of representatives of the State of Delaware will evaluate proposals on a variety of quantitative criteria. Neither the lowest price nor highest scoring proposal will necessarily be selected.

The State of Delaware reserves full discretion to determine the competence and responsibility, professionally and/or financially, of vendors. Vendors are to provide in a timely manner any and all information that the State of Delaware may deem necessary to make a decision.

1. Proposal Evaluation Team

The Proposal Evaluation Team shall be comprised of representatives of the State of Delaware. The Team shall determine which vendors meet the minimum requirements pursuant to selection criteria of the RFP and procedures established in 29 *Del. C.* §§ [6981 and 6982](#). Professional services for this solicitation are considered under 29 *Del. C.* §6982(b). The Team may negotiate with one or more vendors during the same period and may, at its discretion, terminate negotiations with any or all vendors. The Team shall make a recommendation regarding the award to the Division Director, who shall have final authority, subject to the provisions of this RFP and 29 *Del. C.* § [6982\(b\)](#),

STATE OF DELAWARE
Division of Developmental Disabilities Services

to award a contract to the successful vendor in the best interests of the State of Delaware.

2. Proposal Selection Criteria

The Proposal Evaluation Team shall assign up to the maximum number of points for each Evaluation Item to each of the proposing vendor's proposals. All assignments of points shall be at the sole discretion of the Proposal Evaluation Team.

The proposals shall contain the essential information on which the award decision shall be made. The information required to be submitted in response to this RFP has been determined by the State of Delaware to be essential for use by the Team in the bid evaluation and award process. Therefore, all instructions contained in this RFP shall be met in order to qualify as a responsive and responsible contractor and participate in the Proposal Evaluation Team's consideration for award. Proposals which do not meet or comply with the instructions of this RFP may be considered non-conforming and deemed non-responsive and subject to disqualification at the sole discretion of the Team.

The Team reserves the right to:

- Select for contract or for negotiations a proposal other than that with lowest costs.
- Reject any and all proposals or portions of proposals received in response to this RFP or to make no award or issue a new RFP.
- Waive or modify any information, irregularity, or inconsistency in proposals received.
- Request modification to proposals from any or all vendors during the contract review and negotiation.
- Negotiate any aspect of the proposal with any vendor and negotiate with more than one vendor at the same time.

 - Pursuant to section 1902(a)(23) of the Social Security Act any Medicaid eligible DDDS service recipient must be able to receive covered services from any qualified provider willing to furnish such services. DDDS must ensure an adequate supply of qualified vendors for each home and community based service it offers. This open and continuous RFP will generate the network of vendors.

Additionally, the State of Delaware may choose to visit existing installations of comparable systems, which may or may not include vendor personnel. If the vendor is involved in such site visits, the State of Delaware will pay travel costs only for State of Delaware personnel for these visits.

5. Oral Presentations

After initial scoring and a determination that vendor(s) are qualified to perform the required services, selected vendors may be invited to make oral presentations to the Evaluation Team. All vendor(s) selected will be given an opportunity to present to the Evaluation Team.

The selected vendors will have their presentations scored or ranked based on their ability to successfully meet the needs of the contract requirements, successfully demonstrate their product and/or service, and respond to questions about the solution capabilities.

The vendor representative(s) attending the oral presentation shall be technically qualified to respond to questions related to the proposed system and its components. All of the vendor's costs associated with participation in oral discussions and system demonstrations conducted for the State of Delaware are the vendor’s responsibility.

V. Contract Terms and Conditions

A. Contract Use by Other Agencies

REF: Title 29, Chapter [6904\(e\)](#) Delaware Code. If no state contract exists for a certain good or service, covered agencies may procure that certain good or service under another agency's contract so long as the arrangement is agreeable to all parties.

STATE OF DELAWARE
Division of Developmental Disabilities Services

Agencies, other than covered agencies, may also procure such goods or services under another agency's contract when the arrangement is agreeable to all parties.

B. Cooperative Use of Award

As a publicly competed contract awarded in compliance with 29 DE Code Chapter 69, this contract is available for use by other states and/or governmental entities through a participating addendum. Interested parties should contact the State Contract Procurement Officer identified in the contract for instruction. Final approval for permitting participation in this contract resides with the Director of Government Support Services and in no way places any obligation upon the awarded vendor(s).

C. As a Service Subscription

As a Service subscription license costs shall be incurred at the individual license level only as the individual license is utilized within a fully functioning solution. Subscription costs will not be applicable during periods of implementation and solution development prior to the State's full acceptance of a working solution. Additional subscription license requests above actual utilization may not exceed 5% of the total and are subject to Delaware budget and technical review.

D. General Information

1. The term of the contract between the successful bidder and the State shall be for two (2) years with four (4) optional extensions for a period of two (2) years for each extension.
2. The selected vendor will be required to enter into a written agreement with the State of Delaware. The State of Delaware reserves the right to incorporate standard State contractual provisions into any contract negotiated as a result of a proposal submitted in response to this RFP. Any proposed modifications to the terms and conditions of the standard contract are subject to review and approval by the State of Delaware. Vendors will be required to sign the contract for all services, and may be required to sign additional agreements.
3. The selected vendor or vendors will be expected to enter negotiations with the State of Delaware, which will result in a formal contract between parties. Procurement will be in accordance with subsequent contracted agreement. This RFP and the selected vendor's response to this RFP will be incorporated as part of any formal contract.
4. The State of Delaware's standard contract will most likely be supplemented with the vendor's software license, support/maintenance, source code escrow agreements, and any other applicable agreements. The terms and conditions of these agreements will be negotiated with the finalist during actual contract negotiations.
5. The successful vendor shall promptly execute a contract incorporating the terms of this RFP within twenty (20) days after award of the contract. No vendor is to begin any service prior to receipt of a State of Delaware purchase order signed by two authorized representatives of the agency requesting service, properly processed through the State of Delaware Accounting Office and the Department of Finance. The purchase order shall serve as the authorization to proceed in accordance with the bid specifications and the special instructions, once it is received by the successful vendor.
6. If the vendor to whom the award is made fails to enter into the agreement as herein provided, the award will be annulled, and an award may be made to another vendor. Such vendor shall fulfill every stipulation embraced herein as if they were the party to whom the first award was made.

STATE OF DELAWARE
Division of Developmental Disabilities Services

7. The State reserves the right to extend this contract on a month-to-month basis for a period of up to three months after the term of the full contract has been completed.
8. Vendors are not restricted from offering lower pricing at any time during the contract term.

E. Collusion or Fraud

Any evidence of agreement or collusion among vendor(s) and prospective vendor(s) acting to illegally restrain freedom from competition by agreement to offer a fixed price, or otherwise, will render the offers of such vendor(s) void.

By responding, the vendor shall be deemed to have represented and warranted that its proposal is not made in connection with any competing vendor submitting a separate response to this RFP, and is in all respects fair and without collusion or fraud; that the vendor did not participate in the RFP development process and had no knowledge of the specific contents of the RFP prior to its issuance; and that no employee or official of the State of Delaware participated directly or indirectly in the vendor's proposal preparation.

Advance knowledge of information which gives any particular vendor advantages over any other interested vendor(s), in advance of the opening of proposals, whether in response to advertising or an employee or representative thereof, will potentially void that particular proposal.

F. Lobbying and Gratuities

Lobbying or providing gratuities shall be strictly prohibited. Vendors found to be lobbying, providing gratuities to, or in any way attempting to influence a State of Delaware employee or agent of the State of Delaware concerning this RFP or the award of a contract resulting from this RFP shall have their proposal immediately rejected and shall be barred from further participation in this RFP.

The selected vendor will warrant that no person or selling agency has been employed or retained to solicit or secure a contract resulting from this RFP upon agreement or understanding for a commission, or a percentage, brokerage or contingent fee. For breach or violation of this warranty, the State of Delaware shall have the right to annul any contract resulting from this RFP without liability or at its discretion deduct from the contract price or otherwise recover the full amount of such commission, percentage, brokerage or contingent fee.

All contact with State of Delaware employees, contractors or agents of the State of Delaware concerning this RFP shall be conducted in strict accordance with the manner, forum and conditions set forth in this RFP.

G. Solicitation of State Employees

Until contract award, vendors shall not, directly or indirectly, solicit any employee of the State of Delaware to leave the State of Delaware's employ in order to accept employment with the vendor, its affiliates, actual or prospective contractors, or any person acting in concert with vendor, without prior written approval of the State of Delaware's contracting officer. Solicitation of State of Delaware employees by a vendor may result in rejection of the vendor's proposal.

STATE OF DELAWARE
Division of Developmental Disabilities Services

This paragraph does not prevent the employment by a vendor of a State of Delaware employee who has initiated contact with the vendor. However, State of Delaware employees may be legally prohibited from accepting employment with the contractor or subcontractor under certain circumstances. Vendors may not knowingly employ a person who cannot legally accept employment under state or federal law. If a vendor discovers that they have done so, they must terminate that employment immediately.

H. General Contract Terms

1. Independent Contractors

The parties to the contract shall be independent contractors to one another, and nothing herein shall be deemed to cause this agreement to create an agency, partnership, joint venture or employment relationship between parties. Each party shall be responsible for compliance with all applicable workers compensation, unemployment, disability insurance, social security withholding and all other similar matters. Neither party shall be liable for any debts, accounts, obligations or other liability whatsoever of the other party or any other obligation of the other party to pay on the behalf of its employees or to withhold from any compensation paid to such employees any social benefits, workers compensation insurance premiums or any income or other similar taxes.

It may be at the State of Delaware's discretion as to the location of work for the contractual support personnel during the project period. The State of Delaware may provide working space and sufficient supplies and material to augment the Contractor's services.

2. Temporary Personnel are Not State Employees Unless and Until They are Hired

Vendor agrees that any individual or group of temporary staff person(s) provided to the State of Delaware pursuant to this Solicitation shall remain the employee(s) of Vendor for all purposes including any required compliance with the Affordable Care Act by the Vendor. Vendor agrees that it shall not allege, argue, or take any position that individual temporary staff person(s) provided to the State pursuant to this Solicitation must be provided any benefits, including any healthcare benefits by the State of Delaware and Vendor agrees to assume the total and complete responsibility for the provision of any healthcare benefits required by the Affordable Care Act to aforesaid individual temporary staff person(s). In the event that the Internal Revenue Service, or any other third party governmental entity determines that the State of Delaware is a dual employer or the sole employer of any individual temporary staff person(s) provided to the State of Delaware pursuant to this Solicitation, Vendor agrees to hold harmless, indemnify, and defend the State to the maximum extent of any liability to the State arising out of such determinations.

Notwithstanding the content of the preceding paragraph, should the State of Delaware subsequently directly hire any individual temporary staff employee(s) provided pursuant to this Solicitation, the aforementioned obligations to hold harmless, indemnify, and defend the State of Delaware shall cease and terminate for the period following the date of hire. Nothing herein shall be deemed to terminate the Vendor's obligation to hold harmless, indemnify, and defend the State of Delaware for any liability that arises out of compliance with the ACA prior to the date of hire by the State of Delaware. Vendor will waive any separation fee provided an employee works for both the vendor and hiring agency, continuously, for a three (3) month period and is

STATE OF DELAWARE
Division of Developmental Disabilities Services

provided thirty (30) days written notice of intent to hire from the agency. Notice can be issued at second month if it is the State's intention to hire.

3. Work Performed in a State Building

Awarded Vendor(s) who have any employees carrying out any work related to the awarded contract at a State facility shall have those employees comply with any health mandate or policy issued by the State related to a pandemic or other State of Emergency issued by any State authority during the term of the awarded contract, including those that apply directly to State employees. At the present time these include, but not limited to, wearing a mask in all State buildings and the policy for State employees regarding vaccination. The vaccination policy is located at <https://dhr.delaware.gov/policies/documents/covid19-vaccination-and-test-policy.pdf> . For clarity, State buildings are those owned or leased by the State.

4. ACA Safe Harbor

The State and its utilizing agencies are not the employer of temporary or contracted staff. However, the State is concerned that it could be determined to be a Common-law Employer as defined by the Affordable Care Act ("ACA"). Therefore, the State seeks to utilize the "Common-law Employer Safe Harbor Exception" under the ACA to transfer health benefit insurance requirements to the staffing company. The Common-law Employer Safe Harbor Exception can be attained when the State and/or its agencies are charged and pay for an "Additional Fee" with respect to the employees electing to obtain health coverage from the Vendor.

The Common-law Employer Safe Harbor Exception under the ACA requires that an Additional Fee must be charged to those employees who obtain health coverage from the Vendor, but does not state the required amount of the fee. The State requires that all Vendors shall identify the Additional Fee to obtain health coverage from the Vendor and delineate the Additional Fee from all other charges and fees. The Vendor shall identify both the Additional Fee to be charged and the basis of how the fee is applied (i.e. per employee, per invoice, etc.). The State will consider the Additional Fee and prior to award reserves the right to negotiate any fees offered by the Vendor. Further, the Additional Fee shall be separately scored in the proposal to ensure that neither prices charged nor the Additional Fee charged will have a detrimental effect when selecting vendor(s) for award.

5. Licenses and Permits

In performance of the contract, the vendor will be required to comply with all applicable federal, state and local laws, ordinances, codes, and regulations. The cost of permits and other relevant costs required in the performance of the contract shall be borne by the successful vendor. The vendor shall be properly licensed and authorized to transact business in the State of Delaware as provided in 30 *Del. C.* § [2502](#).

Prior to receiving an award, the successful vendor shall either furnish the State of Delaware with proof of State of Delaware Business Licensure or initiate the process of application where required. An application may be requested in writing to: Division of Revenue, Carvel State Building, P.O. Box 8750, 820 N. French Street, Wilmington, DE 19899 or by telephone to one of the following numbers: (302) 577-8200—Public Service, (302) 577-8205—Licensing Department.

STATE OF DELAWARE
Division of Developmental Disabilities Services

Office of Business Support Services
Chief of Administration
1054 South Governor's Avenue
Dover, DE 19901**

7. Indemnification

a. General Indemnification

b. Proprietary Rights Indemnification

Vendor shall warrant that all elements of its solution, including all equipment, software, documentation, services and deliverables, do not and will not infringe upon or violate any patent, copyright, trade secret or other proprietary rights of any third party. If any equipment, software, services (including methods) products or other intellectual property used or furnished by the vendor (collectively "Products") is or in vendor's reasonable judgment is likely to be, held to constitute an infringing product, vendor shall at its expense and option either:

- (1) Procure the right for the State of Delaware to continue using the Product(s);
- (2) Replace the product with a non-infringing equivalent that satisfies all the requirements of the contract; or
- (3) Modify the Product(s) to make it or them non-infringing, provided that the modification does not materially alter the functionality or efficacy of the product or cause the Product(s) or any part of the work to fail to conform to the requirements of the Contract, or only alters the Product(s) to a degree that the State of Delaware agrees to and accepts in writing.

8. Insurance

18. Termination of Contract

The contract resulting from this RFP may be terminated as follows by Delaware Department of Health and Social Services, Division of Developmental Disabilities Services.

a. Termination for Cause

On receipt of the contract cancellation notice from the State, the Vendor shall have no less than five (5) days to provide a written response and may identify a method(s) to resolve the violation(s). A vendor response shall not effect or prevent the contract cancellation unless the State provides a written acceptance of the vendor response. If the State does accept the Vendor's method and/or action plan to correct the

STATE OF DELAWARE
Division of Developmental Disabilities Services

identified deficiencies, the State will define the time by which the Vendor must fulfill its corrective obligations. Final retraction of the State's termination for cause will only occur after the Vendor successfully rectifies the original violation(s). At its discretion the State may reject in writing the Vendor's proposed action plan and proceed with the original contract cancellation timeline.

b. Termination for Convenience

The State may terminate this Contract at any time by giving written notice of such termination and specifying the effective date thereof, at least twenty (20) days before the effective date of such termination. This is not a termination for convenience and will not be converted to such.

19. Non-discrimination

In performing the services subject to this RFP the vendor, as set forth in Title 19 Delaware Code Chapter 7 section [711](#), will agree that it will not discriminate against any employee or applicant with respect to compensation, terms, conditions or privileges of employment because of such individual's race, marital status, genetic information, color, age, religion, sex, sexual orientation, gender identity, or national origin. The successful vendor shall comply with all federal and state laws, regulations and policies pertaining to the prevention of discriminatory employment practice. Failure to perform under this provision constitutes a material breach of contract.

20. Covenant against Contingent Fees

The successful vendor will warrant that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement of understanding for a commission or percentage, brokerage or contingent fee excepting bona-fide employees, bona-fide established commercial or selling agencies maintained by the Vendor for the purpose of securing business. For breach or violation of this warranty the State of Delaware shall have the right to annul the contract without liability or at its discretion to deduct from the contract price or otherwise recover the full amount of such commission, percentage, brokerage or contingent fee.

22. Vendor Responsibility

STATE OF DELAWARE
Division of Developmental Disabilities Services

The successful Vendor(s) shall be responsible for all products and services as required by this RFP whether or not the Vendor or its subcontractor provided final fulfillment of the order. Vendors doing business with the State are encouraged to adopt fair background check practices. Vendors can refer to 19 Del. C. [§711\(g\)](#) for applicable established provisions.

25. Vendor Background Check Requirements

Vendor(s) selected for an award that access state property or come in contact with vulnerable populations, including children and youth, shall be required to complete background checks on employees serving the State's on premises contracts. Unless otherwise directed, at a minimum, this shall include a check of the following registry:

- Delaware Sex Offender Central Registry at:
<https://sexoffender.dsp.delaware.gov/>

Individuals that are listed in the registry shall be prevented from direct contact in the service of an awarded state contract, but may provide support or off-site premises service for contract vendors. Should an individual be identified and the Vendor(s) believes their employee's service does not represent a conflict with this requirement, may apply for a waiver to the primary agency listed in the solicitation. The Agency's decision to allow or deny access to any individual identified on a registry database is final and at the Agency's sole discretion.

By Agency request, the Vendor(s) shall provide a list of all employees serving an awarded contract, and certify adherence to the background check requirement. Individual(s) found in the central registry in violation of the terms stated, shall be immediately prevented from a return to state property in service of a contract award.

STATE OF DELAWARE
Division of Developmental Disabilities Services

A violation of this condition represents a violation of the contract terms and conditions, and may subject the Vendor to penalty, including contract cancellation for cause.

Individual contracts may require additional background checks and/or security clearance(s), depending on the nature of the services to be provided or locations accessed, but any other requirements shall be stated in the contract scope of work or be a matter of common law. The Vendor(s) shall be responsible for the background check requirements of any authorized Subcontractor providing service to the Agency's contract.

Career Exploration and Assessment Service Description

Career exploration and assessment is a person-centered comprehensive employment planning and support service that provides assistance for service recipients to obtain, maintain, or advance in competitive employment or self-employment. It is a focused, time limited service engaging a service recipient in identifying a career direction and developing a plan for achieving competitive, integrated employment at or above the State's minimum wage. The outcome of this service is documentation of the service recipient's stated career objective and a career plan, including any necessary education and training, used to guide individual employment support.

This service may include conducting community based career assessment. The assessment may include:

- Conducting a review of the service recipient's work history, interests and skills.
- Identifying types of jobs in the community that match the service recipient's interests, abilities, and skills.
- Identifying situational assessments (including job shadowing or job tryouts) to assess the service recipient's interest and aptitude in a particular type of job.
- Developing a report that specifies recommendations regarding the service recipient's individual needs, preferences, abilities, and characteristics of an optimal work environment. The report must also specify if education, training, or skill development is necessary to achieve the service recipient's employment or career goals, with an indication of whether those elements may be addressed by other related services in the service recipient's person-centered plan or other sources.

The service also includes transportation as an integral component of the service, such as to a job shadowing opportunity, during the delivery of career exploration and assessment.

Competitive and integrated employment, including self-employment, shall be considered the first option when assisting service recipients who are of working age.

Career exploration and assessment services may be authorized for up to six (6) months in a benefit year, with multi-year service utilization and reauthorization only with explicit Division approval.

Community Participation Service Description

Community participation services are the provision of scheduled activities outside of a service recipient's home that support acquisition, retention, or improvement in self-care, sensory-motor development, socialization, daily living skills, communication, community living, and social skills. Community participation services include supervision, monitoring, training, education, demonstration, or support to assist with the acquisition and retention of skills and training and education in self-determination. Community participation may include self-advocacy training to assist the service recipient in expressing personal preferences, self-representation, and individual rights and to make increasingly responsible choices. Each service recipient receiving Community participation services works toward acquiring the skills to become an active member of the community. Services are furnished consistent with the service recipient's person-centered plan.

Community participation services focus on the continuation of the skills already learned in order to build natural supports in integrated settings. The service recipient is ready to interact and participate in community activities and needs the supports of staff to

facilitate the relationship building between the service recipient and other non-disabled participants within the community activities. Ideally, the paid staff will fade or decrease their support as the natural supports become sufficient to support the service recipient in the integrated settings and activities.

Community participation may be furnished in the general community, or any combination of service locations, provided that the activities take place in a non-residential setting that is separate from the service recipient's private residence or other residential living arrangement. Service recipients may gather at the beginning and end of the day at a "hub" before embarking on their activities of the day but may not spend any more than 1 hour in total at the hub per day. Other than the brief period at the beginning or end of the day, community participation cannot be delivered in a Vendor-owned or managed setting.

The Vendor must actively promote and be capable of providing opportunities for full access to participate in the greater community for those service recipients that express a desire for such access and for whom it would not be contrary to their health and safety needs as articulated in their person-centered plan. The Vendor must demonstrate that they support service recipients to exercise their option to achieve their desired level of participation in the community. To the greatest extent possible, service recipients should be exposed to a broad array of community experiences so that they can make informed choices about what they like and what they do not like.

Community participation provides community-based habilitative services for service recipients who require support to develop skills that lead to independent community navigation. Service recipients must have a desired outcome to access to the community in a meaningful way via true community integration. Paid staffing supports are required to fade as natural community supports are developed. Each service recipient receiving Community participation services works toward acquiring the skills to become an active member of their community. Community participation services are highly individualized, thus assumes a staff to client ratio of 1:1 or 1:2. Although Community Participation activities may be provided in a location that would be considered to be recreational in nature, the purpose of the environment is to provide the opportunity to acquire the identified skill.

Direct support staff providing community participation services may perform the following activities:

1. Explore/Discover service recipient interests - Community based assessments (non-employment related), informational interviews with the service recipient, family and others who know them well, administer interest inventory tools;
2. Identify community resources – Based on service recipient interests and skill sets: make cold calls, network with family and other support resources, reach out to existing community partners, attend county/community events, community mapping;
3. Maintenance of appropriate community and interpersonal behaviors - Develop and implement fading plan, maintain appropriate community behaviors, follow-up as needed with the service recipient to determine needs and offer encouragement and/or advice; and

4. Other training needs identified by assessment and by the person-centered plan. This may include some of the following: basic money management, coordinate natural supports, the use of public transportation, on-going assessment and support in development of future community participation goals.

Community participation services shall include activities that directly relate to the service recipient's desired outcome, such as:

- Career exploration: assessing of interests through volunteer experiences, internships, etc.
- Community integration experiences to support fuller participation in community life
- Skills development and training
- Development of activities of daily living and independent living skills
- Socialization experiences and support to enhance interpersonal skills
- Pursuit of personal interests and hobbies.

Activities should be motivated by the following core principles:

- Maximum time in the community
- Deliberate and purposeful activities
- Driven by service recipient outcomes and preferences
- Supplement to employment, but not a replacement
- Use generic community resources
- Adult appropriate activities
- Focus on relationship development with community members
- Maximize community/natural supports
- Staff model interactions with individuals that foster an image of competence and promote acceptance

Community participation services promote full integration and inclusion of service recipients into mainstream society through positive community contributions and relationship development. Community participation services are not activities to "fill" the service recipient's day; it is a vehicle for service recipients to explore and engage in meaningful and purposeful activities, based on individual preferences and needs as identified in their person-centered plan. The individual's person-centered plan must include community participation as a desired service and their outcomes, goals, services and supports must be consistent with the services defined as community participation services. The service recipient's person-centered plan must include specific outcomes related to community integration.

Community participation outcomes, goals and the person-centered plan must be reviewed: no less than annually, more frequently as necessary or as requested by the service recipient. Community participation services are expected to be provided only for as long as necessary. A goal to decrease professional supports and increase natural supports must be a standard part of every service recipient's plan. Specific fading strategies must be outlined in the person-centered plan.

Community participation services may also be used to provide supported retirement activities. As some service recipients reach retirement age, they may no longer desire to

work and may need supports to assist them to engage in meaningful retirement activities in their communities. This might involve altering schedules to allow for more rest time throughout the day, support to participate in hobbies, clubs and/or other senior related activities in their communities that provide a specific beneficial outcome for the service recipient.

Community participation services take place in a non-residential setting that is separate from the service recipient's private residence or other residential living arrangement. Service recipients may gather at the beginning and the end of the service day at a "hub" before embarking on their activities of the day or returning home, but they may not spend more than one hour in total at the hub per day. Other than the brief period at the beginning and end of the day, community participation services cannot be delivered in a vendor-owned or managed setting. Agency staff may provide personal care/assistance as a component part of community participation services in order to meet the needs of a service recipient; however, personal care/assistance may not be the only service provided. Community participation is not intended to be used as supports for paid employment activities.

Community participation services may be provided outside of the "typical" daytime hours; however, for service recipients who also receive residential habilitation, supported living or any other residential "like" support service, documentation must be included as part of their person-centered plan detailing why those activities cannot be provided as part of the residential service and support activities

Transportation includes staff time to transport service recipients to and/or from their community location. If transportation support is to be provided, it must be described in the service recipient's person-centered plan and an outcome to assist the service recipient to become more independent and access a more integrated form of transportation must also be included in the person-centered plan.

Because community participation is very individualized and is heavily focused on community exploration, it can only be provided in staffing ratios of one staff to each participant or one staff to two participants.

Prevocational Service Description

Per Delaware's Employment First Law, H.B. 319, signed into law in July 2012, and in accordance with other federal guidelines governing employment for service recipients with disabilities, agencies that provide services to service recipients with disabilities are required to consider competitive and integrated employment, including self-employment, as the first option when serving service recipients with disabilities who are of working age.

Prevocational services provide learning and work experiences, including volunteer work and/or internships, where the service recipient can develop general, non-job-task-specific strengths and skills that contribute to employability in paid employment in integrated community settings. Services are expected to produce specific outcomes to be achieved, as determined by the service recipient and his/her services and supports planning team through an ongoing person-centered planning process evaluated annually.

Initial referrals for prevocational services must also include a referral to the Division of Vocational Rehabilitation in order to determine eligibility for vocational rehabilitation services and to arrange for formal community-based employment assessment. The results of the initial community-based employment assessment must support the outcome of integrated, competitive employment and include specific strategies to be achieved by participating in prevocational services that will ultimately enable the service recipient to obtain integrated, competitive employment.

Service recipients must, at minimum, be assessed annually for the continued need for prevocational services in order to continue to be eligible for prevocational services. Reviewing service recipient progress toward the previously identified specific strategies shall be included as part of the annual assessment. Service recipients receiving prevocational services must have employment-related outcomes in their person-centered plan; the general habilitation strategies must be designed to support such employment outcomes. Service

recipients will be eligible for and can choose to participate in prevocational services while engaging in job development or job search activities in order to expand employability skills.

The optimal outcome for prevocational services is competitive, integrated employment in the community for which a service recipient is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the vendor for the same or similar work performed by individuals without disabilities.

Prevocational services should enable each service recipient to attain the highest level of work in the most integrated setting and with the job matched to the service recipient's interests, strengths, priorities, abilities, and capabilities, while following applicable federal wage guidelines. Services are intended to develop and teach general skills; Examples include, but are not limited to: ability to communicate effectively with supervisors, co-workers and customers; generally accepted community workplace conduct and dress; ability to follow directions; ability to attend to tasks; workplace problem solving skills and strategies; general workplace safety and mobility training.

Prevocational facility based services are the provision of regularly scheduled employment related activities that may be furnished at a fixed-site facility, in the general community, or any combination of service locations, provided that the activities take place in a non-residential setting separate from the service recipient's private residence or other residential living arrangement.

Prevocational non-facility-based services may be furnished in the general community, or any combination of service locations, provided that the activities take place in a non-residential setting that is separate from the service recipient's private residence or other residential living arrangement. Service recipients may gather at the beginning and end of the day at a "hub" before embarking on their employment related activities for the day but may not spend any more than 1 hour in total at the hub during the scheduled program delivery day. Other than the brief period at the beginning or end of day, Prevocational non-facility-based services cannot be delivered in a Vendor owned or managed setting.

The Vendor must actively promote and be capable of providing opportunities for full access to participate in the greater community for those service recipients that express a desire for such access and for whom it would not be contrary to the health and safety needs as articulated in their person-centered plan. The Vendor must demonstrate that they support service recipients to exercise their option to achieve their desired level of participation in the community. To the greatest extent possible, service recipients should be exposed to a broad array of community experiences that they can make informed choices about what they like and what they do not like.

Prevocational services are learning and work experiences, including volunteer work that assist the service recipient to develop general, non-job-task-specific strengths and skills (soft skills) that contribute to employability related to the service recipient's identified employment goal. The outcome of this service is competitive, integrated employment in the community matched to the serviced recipient's interests, strengths, priorities, abilities, and capabilities.

Prevocational services may include activities that assist the service recipient to improve their:

- Ability to communicate effectively with supervisors, co-workers, and customers
- Ability to display generally accepted community workplace conduct and dress

- Ability to follow directions
- Ability to attend to tasks
- Workplace problem solving, skills and strategies
- General workplace safety
- Mobility training

Clear distinction must be made between prevocational services and vocational services. Prevocational services focus on teaching general skills (soft skills) that contribute to the service recipient's employability, and vocational services are services that teach job task specific skills.

Prevocational services are expected to occur over a defined period of time with specific employment outcomes to be achieved, as determined by the service recipient and his/her service and supports planning team through an ongoing person-centered planning process.

Service recipients receiving Prevocational services must have employment related goals in their person-centered plan, and the prevocational activities must be designed to support such employment goals.

Personal care/assistance may be a component part of prevocational services as necessary to meet the needs of a service recipient, but may not comprise the entirety of the service.

A service recipient receiving prevocational services may pursue employment opportunities at any time to enter the general work force. Prevocational services are intended to assist service recipient to enter the general workforce. Prevocational services may include volunteer work, such as learning and training activities that prepare a person for entry into the paid workforce.

Participation in prevocational services is not a pre-requisite for individual or small group supported employment services; Service recipients may choose to go directly into supported employment in lieu of prevocational services.

The service recipient's person-centered plan must include prevocational services as a desired service and their goals, services and supports must be consistent with the services defined as prevocational services. Prevocational service goals and person-centered plan must be reviewed: no less than annually, more frequently as necessary or as requested by the service recipient. These services and supports should be designed to support successful employment outcomes consistent with the service recipient's goals.

Meals are not provided as part of this service.

The transportation add-on may only be billed for days when transportation is actually provided. Transportation to and from the service location may be a component part of prevocational services and the cost of this transportation is included as an add-on in the rate paid to vendors of prevocational services.

<p>Residential Habilitation Service Description Neighborhood Group Home or Community Living Arrangement</p>
--

Residential habilitation may be provided in a vendor-managed setting such as a neighborhood group home or a supervised or staffed apartment (community living arrangement).

Residential habilitation may be available to service recipients whose health and safety conditions pose a serious at risk immediate harm, or death to the service recipient or others, who are the victims of abuse or neglect, or who have experienced the loss of a caregiver or a change in the caregiver's status that prevents them from meeting the needs of the service recipients and that puts them at risk of homelessness. The need for residential habilitation must be demonstrated, documented and prioritized using a standardized assessment tool administered by the state. Residential habilitation must be provided in the most integrated setting to meet the service recipient's needs.

Awarded vendors must actively promote and be capable of providing opportunities for full access to participate in the greater community for those service recipients that express a desire for such access and for whom it would not be contrary to their health and safety needs as articulated in their person-centered plan. Awarded vendors must demonstrate that they support service recipients to exercise their option to achieve their desired level of participation in the community. To the greatest extent possible, service recipients should be exposed to a broad array of community experiences so that they can make informed choices about what they like and what they do not like.

Residential habilitation services can include assistance with acquisition, retention, or improvement in skills related to activities of daily living, such as personal grooming and cleanliness, bed making and household chores, eating and the preparation of food, and the social and adaptive skills necessary to enable the individual to reside in a non-institutional community-based setting. These services are individually planned and coordinated through the service recipient's person-centered plan. The amount, duration, frequency and scope of these services are based on the service recipient's need.

The following activities may be performed under all types of residential habilitation:

- Self-advocacy training that may include training to assist in expressing personal preferences, self-representation, individual rights and to make increasingly responsible choices.
- Independent living training may include personal care, household services, child and infant care (for parents themselves who are developmentally disabled), and communication skills such as using the telephone.
- Cognitive services may include training involving money management and personal finances, planning and decision making.

Out-of-home respite may be planned or may be used for service recipients who are experiencing a short-term crisis. Out-of-home respite may be provided on the same day that a service recipient also receives a day service. However, payment will not be made for Respite provided at the same time when other services that include care and supervision are provided.

- Medicaid-certified public ICF-IID
- Licensed neighborhood group home
- DDDS-credentialed community living arrangement
- Overnight camp
- Shared living arrangement
- Other emergency temporary living arrangement that meets DDDS standards.

Respite is not available to service recipients receiving residential habilitation in a neighborhood group home or community living arrangement.

For respite service that is provided in a licensed group home, community living arrangement, or shared living arrangement, the State will ensure that the needs and best interest of the other residents in the home are taken into account and they agree to the proposed arrangement before authorizing the setting for the purpose of a respite service. Prior-approval is required by the DDDS Director of Community Services or designee for a service recipient living in the family home to access respite services in a group home or community living arrangement.

The total payment for respite and personal care services, combined, is limited to \$2,700 per service recipient per waiver demonstration year. Respite cannot be provided to service recipients who receive residential habilitation in a vendor-managed setting. If a service recipient is enrolled for less than an entire demonstration year, the annual limit will be prorated by the number of months remaining in the demonstration year.

Supported Employment (Individual) Service Description

Individual supported employment services are provided to service recipients, at a one to one staff to consumer ratio. Because of their disabilities, there is a need for ongoing support to obtain and maintain an individual job in competitive or customized employment or self-employment position, in an integrated work setting in the general workforce for which a service recipient is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. The outcome of this service is sustained paid employment at or above the minimum wage in an integrated setting in the general workforce, in a job that meets personal and career goals in order to promote community inclusion.

Supported individual employment may also include support to establish or maintain self-employment, including home-based self-employment. Supported individual employment services are individualized and may include any combination of the following services: vocational/job-related discovery or assessment, person-centered employment planning, job placement, job development negotiation with prospective employers, job analysis, job carving, training and systematic instruction, job coaching, on the job employment

supports, social skills training, benefits support, training and planning, transportation, asset development and career advancement services, implementation of assistive technology, and other workforce support services including services not specifically related to job skill training that enable the service recipient to be successful in integrating into the job setting.

Individual supported employment services are activities provided to service recipients who because of their disabilities need ongoing support in order to obtain or maintain employment. Individual supported employment is defined as an individual job, in an integrated work setting, in the general workforce for which the service recipient is compensated at or above the minimum wage. Individual supported employment assumes a staff to client ratio of 1:1; therefore, the service recipient being supported must not be part of a team, crew or group of others with disabilities. Clarification must be made when a service recipient works at a business or company while others with disabilities are also working at the same business or company, at the same time. The distinction must be made to determine whether or not each service recipient has an "individual" job. Services and supports must be provided by a job coach/employment specialist.

Documentation is maintained that the service is not available under a program funded under section 110 of the Rehabilitation Act of 1973 or IDEA (20 U.S.C. 1401 et seq.) Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following: incentive payments made to an employer to encourage or subsidize the employer's participation in supported employment; or payments that are passed through to users of supported employment services.

- Implementation of other workforce support services including services not specifically related to job skill training that enable the waiver participant to be successful in integrating into the job setting.

All service recipients expressing an interest in employment must be referred to the Division of Vocational Rehabilitation to be assessed for eligibility.

In addition to the need for an appropriate job match, that meets the service recipient's skills and interests, service recipients with the most significant disabilities may need long-term employment support to successfully maintain a job due to the ongoing nature of the service recipient's support needs, changes in life situations, or evolving and changing job responsibilities.

The service recipient's person-centered plan must include individual supported employment as a desired service and their employment goals, services and supports must be consistent with services defined as individual supported employment.

The employment goals and person-centered plan must be reviewed: no less than annually, more frequently as necessary or as requested by the service recipient. These services and supports should be designed to support successful employment outcomes consistent with the service recipient's goals.

Individual supported employment activities do not include payment for routine supervision, training, support and adaptations typically available to other workers without disabilities filling similar positions in the business.

If transportation support is to be provided, it must be described in the service recipient's person-centered plan and goals must be included to assist the service recipient to become more independent and access a more integrated form of transportation.

Individual supported employment services may include services and supports that assist the service recipient in achieving self-employment through the operation of a business; however, Medicaid funds may not be used to defray the expenses associated with starting up or operating a business. Assistance for self-employment may include:

- Aid to the service recipient in identifying potential business opportunities;

- Assistance in the development of a business plan, including potential sources of business financing and other assistance in including potential sources of business financing and other assistance in developing and launching a business;
- Identification of the supports that are necessary in order for the service recipient to operate the business; and

Service recipients receiving individual supported employment services may also receive other day services. A service recipient's person-centered plan may include two or more types of day services; however, different types of day services may not be billed for the same part of the day.

Individual supported employment services are expected to be provided only for as long as necessary. A goal to decrease professional supports and increase natural supports must be a standard part of every service recipient's plan.

Question:	Can DDDS provide guidance on the types of acceptable business references?	
Answer:	DDDS suggests listing business references that can appropriately attest to a provider's ability to provide HCB services. References from families of service recipients and/or individual service recipients are not preferred. Appropriate references should be able to offer information about the provider's qualifications, experience, reputation, attributes and/or financial stability. Insurance agents/carriers, contractors, landlords, etc. may all be appropriate references.

Question:	If our company is interested in providing a service we have not been previously authorized for, should we check that service box?	
Answer:	No. Providers should only check the boxes of services they are currently qualified to provide by the DDDS Provider Authorization Committee. Do not check any service for which you do not have a corresponding	

	qualifying letter from DDDS that indicates you are qualified to provide that service. Providers who wish to be qualified to provide additional HCB services should refer to https://dhss.delaware.gov/dhss/ddds/cps.html

Question:	For currently qualified providers of multiple HCBS Lifespan Waiver and/or Pathways to Employment State Plan Amendment (SPA) services, is a separate RFP proposal required for each individual service?	
Answer:	No. For providers that are <u>currently</u> qualified to provide multiple services by the DDDS Provider Authorization Committee, one proposal that includes the minimum submission requirements for all services the vendor has been determined to provide is sufficient. Each service that a provider has been qualified to provide by the Provider Authorization Committee must be indicated in Appendix C, Part II, page 77 of this RFP and corresponding qualified provider letter(s) indicating each service must be included with the proposal. If the signed and dated letter(s) from DDDS do not indicate which services the provider has been qualified to provide, the provider should request an updated letter from DDDS. Replacement and/or updated copies of qualified provider letters can be obtained by contacting the Administrative Assistant to the Provider Authorization Committee at 302-744-9600.

Question:	Is there only one (1) primary vendor for all services or one (1) primary vendor per service?	
Answer:	No. This paragraph and sub-paragraph apply to “Multi-Vendor Solutions (Joint Ventures)” and only apply if the RFP proposal is a multi-vendor solution. This is referring to a vendor who sub-contracts portions of the scope of work to other vendors. The “primary vendor” is the vendor that holds the contract and is responsible for performance under the contract, and therefore responsible for all sub-contractors’ quality of work. The Division of Developmental Disabilities Services (DDDS) seeks to provide a robust network of qualified providers to deliver Home and Community Based supports and services.
