Q1. Could you clarify if you are looking for a narrative as well as the workplan template completed for the submission or just the workplan template?

A1. That would be up to the bidder, the workplan needs to clearly articulate their plan and activities and give the reviewer a clear picture of their proposed project.

Q2. Please clarify page 51, 5 (c) where it references the degree of "minimum of a bachelor's degree". Is this the expectation for all home visitors within the 3-year timeline or are you looking for a percentage of parent educators to have a bachelor's degree? Will there be exceptions for those with AA degrees that are currently employed?

A2. Exceptions to this requirement can be granted in some cases, for example if the home visitor is serving a specific population where recruitment can be challenging.

Q3. Will there be a budget increase from the current budget amount?

A3. Budgets should be consistent and reasonable with the proposed project and specific budgets will be negotiated with awarded vendors.
