TO: ALL OFFERORS

FROM: Kathleen Bergin
Program Manager II

SUBJECT: ADDENDUM TO RFP – 26310- Heavy Equipment Rental

ADDENDUM #1

Questions received and responses from DNREC.

1. Can bidders bid any items they can supply or must bid all ?
 - a. Bidders should only bid items they can supply.
2. Per 4. Multiple Source Award section the Agency may award this contract to multiple vendors. Will you award by line item or primary/ secondary/ tertiary ?
 - a. Vendors will be selected on best fit for the project, then best price, then availability for planned projects. In emergency situations best available will become priority.
3. If the Agency places an order and the first choice vendor does not have a unit in stock at the time of the order, will the City procure equipment from the next lowest bidder or the 1st call vendor will be required to supply.
 - a. If Vendor cannot supply equipment requested DNREC will move to next vendor. This will not preclude vendors from additional requests for additional projects that may occur simultaneously.
4. Regarding the equipment below, there are variables. I would like to ask if you may be able to provide more specifics for these items. Thank you.

Excavator-Tracked – What size? How many pounds? What size bucket, and smooth, or bucket?
5. Tracked hydraulic excavator, operating weight approximately 80,000–82,000 lb, net engine power approximately 300 hp, with standard bucket capacity around 2.0–2.3 m³ (2.6–3.0 yd³) and maximum digging depth of at least 26 ft
 - a.
6. -Skid Steer >110HP – Track, or tire unit? What type of bucket, smooth or tooth?
7. Tracked skid-steer loader (vertical lift path), operating weight approximately 9,500–10,000 lb, net engine power approximately 100–105 hp, rated operating capacity approximately 3,300–3,500 lb at 50% tipping load, smooth bucket preferred but will considered toothed bucket submission.
 - a.

All other terms and conditions remain the same.
